## B: VETERINARY HEALTH CERTIFICATE

I, ..... a **veterinarian**  
authorised thereto by the Veterinary Authority of the Republic of South Africa hereby certify that the cooked meat product(s)  
described in **Section A**:

**B1. Health Requirements:**

1. The meat derived from .....(animal species)
2. The cooked meat products were:
  - 2.1 Manufactured from meat derived from animals originating from the OIE recognized Foot and mouth disease free zone of South Africa and from farms not under veterinary restriction for FMD control or any disease to which the species is susceptible.
  - 2.2 Manufactured from meat derived from animals were slaughtered at an abattoir approved for export to Namibia by the official South African veterinary authority.
  - 2.3 In the case of meat originating from pigs, the animals originated from areas free from restrictions regarding African Swine fever or alternatively from approved piggeries and herds which were serologically tested for Porcine reproductive and respiratory syndrome (PRRS) with negative results
3. The products:
  - 3.1 were processed at a veterinary approved processing facility, monitored by the South African Veterinary authorities and where hygiene conditions are satisfactory in all respects. The method of production renders the product safe and poses no risk of transmitting FMD. An inner core temperature of at least **70°C** was maintained for **30 minutes**.
  - 3.2 Were after processing wrapped and packed in an establishment approved for export and stored in a hygienic manner taking necessary precautions to avoid contact of the product with any potential sources of FMD virus.
  - 3.3 Are considered to not to contain any harmful additives and are unconditionally fit for human consumption.
4. The markings on the packaging containing the finished product are fully descriptive and identify the plant of origin
5. The motor vehicle or container used for conveyance of the cooked meat product conforms to internationally accepted standards of cleanliness, construction, maintenance and operation, was loaded under supervision and sealed immediately after loading at the approved facility.
